Region II

District 1-5A
 El Paso Montwood didn't have much competition, but got past Coronado.

District 2-5A
 Monterey a close second, but Amarillo wins because no good Monterey image could be found.

District 3-5A
 Little SWC produced 3 other great looks: Cooper, OHS and Permian.

District 4-5A
 Summit wins District 4 by default; only found two other helmets.

District 5-5A
 You had to believe Carroll would at least make the playoffs.

District 6-5A
 Similar look to South Carolina; Cowboy image is original.

District 7-5A
 Nice look for LD Bell, but district foes didn't put up a challenge at all.

District 8-5A
 Lamar edged Bowie for this spot; notice the "LHS" embedded in the logo.

We're not big on copied helmets, but lack of Amarillo image helps Montwood here.

Not much of a contest here; Lee's look too classic to pick against.

Helmet Bowl win ends Coppell's drought against the Dragons.

This round was easier for Lamar than getting out of 8-5A.

Montwood's magic ends here; Lee now must face Lamar.

Excellent regional final, with Lamar barely nudging Lee.

Lamar continues to run through opponents, with Lee looming next.

South Garland, gaining steam, ends Sunset's cinderella bid.

South Garland holds off Klein Oak, becoming class of Region II.

Giant upset sees Oak's new look holding off Temple's classic logo.

SG easily knocks out Berkner, whose logo looks a lot like Dodge's.

Not a power on the field, Sunset proving a monster in TX Helmet Bowl.

Temple has little trouble in dispensing Round Rock's helmet.

Klein Oak's simplicity wins out over Conroe's jumbled logo.

District 9-5A
 Lake Highlands a close second to Berkner, winner of District 9-5A.

District 10-5A
 Closest competition for South Garland came from Rockwall's helmet.

District 11-5A
 Carter had the classic look, but Sunset edges Cowboys to make it here.

District 12-5A
 North Mesquite barely edges powers Longview, Lee and John Tyler.

District 13-5A
 Not good on the field lately, but Temple's look on helmet is great.

District 14-5A
 Round Rock had little competition to win this district.

District 15-5A
 Conroe wins weak district; Lufkin OK at best. The Woodlands has too much of Christmas look.

District 16-5A
 Klein Oak can be a dark-horse, with a nice look similar to Oregon.

Region I Champ

Arlington Lamar knocked off Lee to reach this point.

Region II Champ

So, Garland emerged from a tough Region II field.

State's Final Four

This proved the closest matchup of the semis. Lamar's unique, intricate design won out in the end, putting the Vikes in the finals.

Deer Park prevented Churchill from going wire-to-wire, taking over the lead in the final stages of the Helmet Bowl voting.

Deer Park had one of the easier paths to this point.

Emerged from stronger than anticipated region.

Region III Champ

Region IV Champ

Region III

District 17-5A
 This spin-off of the NY Jets' former helmet is a great look.

District 18-5A
 Hands down best district in state; spelling "Rams" inside the logo helped Mayde Creek advance.

District 19-5A
 One of the weaker districts, Spring Woods edges out Nimitz.

District 20-5A
 Little to choose from here, so Bellaire wins by default.

District 21-5A
 Not the best image here, but can't deny great look of the flying Gander.

District 22-5A
 Strongest helmet in the region; more teams should copy this look.

District 23-5A
 Not much competition in the Sugar Land area; Elkins advances.

District 24-5A
 They're orange Yellow Jackets (unstable), but still a nice look for Alvin.

Big upset; Mayde Creek's originality loses out to Jesuit's take on the Jets.

Bellaire, lucky to be here, faces easiest second-round matchup in SW.

Deer Park strong in second round against formidable Lee helmet.

This was a yawner for Alvin; next round won't be as easy.

Second round a breeze for Jesuit after struggling to top Mayde Creek.

Lopsided regional final sees Deer Park easily advancing to semis.

Deer Park keeps gaining steam, knocking out Alvin quickly.

Churchill proves to be the main power in this all-San Antonio battle.

Closest regional final in state; South just can't hold of WC in the end.

A mild upset, but original logo beats out Memorial's Mustang copy.

In a battle of all letters, WC gets the slight edge over AT.

The addition of the mascot above the "W" helps Warren advance.

First time in ages Ponies beat Longhorns, but anything can happen in Helmet Bowl.

Dead copy of Dallas not enough to propel Porter past Harlingen South.

District 25-5A
 Westlake was a challenge, but Austin here.

District 26-5A
 Churchill's classy look knocks off Judson's famous helmets.

District 27-5A
 With little to choose from here, East Central gets the nod.

District 28-5A
 Warren is one of the few newer programs to come up with a nice helmet.

District 29-5A
 Couldn't keep the Horns out; Laredo United's orange is less burned.

District 30-5A
 May be a copy of SMU, but McAllen Memorial's colors work well here.

District 31-5A
 Original logo and nice use of only two colors helped Harlingen South.

District 32-5A
 Best helmet in pro football worth at least first round in TX Helmet Bowl.

2006 5A Texas Helmet Bowl Champs
